Cards are packaged in bio-degradable, compostable cellophane sleeves, or, where the design allows - with a biodegradable card-catch sticker.

If you have a preference for sleeves over card catches please let us know when ordering.

Orders are packaged using 100% eco-friendly packaging.

Cards are sold in wholesale packs of 6.

Lead time is usually between 2 and 5 days,
depending on the size of the order, but I can provide an accurate postage date upon ordering.

I always check that my stockists are far enough apart, especially as I know many are small, independent businesses for whom selling unique products is important.

If you have any questions please get in touch and I would be delighted to help.
